

## **Fungal Barcoding Workshop: Finding the Best Gene for DNA Barcoding**

**Convenors:** Conrad Schoch, Keith Seifert, Lorenzo Lombard & Pedro Crous

CBOL Fungal Working Group Workshop. The goals of this meeting are a) to discuss the data generated over the past six months comparing four potential fungal barcode markers, b) to arrive at a consensus on the proposed fungal markers, c) to write an outline of the paper and report to CBOL, d) finalize the timeline for completion and submission of the manuscript and e) discuss future work. Data will be presented and the discussions led by the individuals who are most familiar with each taxonomic group.

### **Tentative programme**

**Arrival (16 or 17<sup>th</sup> April):** Saturday evening or Sunday morning.

**Venue:** Hotel The Albus, Vijzelstraat 3, Amsterdam (more details will be announced soon)

Programme

#### **Sunday April 17<sup>th</sup>**

Convenor: Conrad Schoch

10:00 Introductions and outline of the meeting's goals

12:30 Lunch

1:30 Dikarya (Ascomycota and Basidiomycota). Presentation and discussion of data.

18:00 Supper

#### **Monday April 18<sup>th</sup>**

Convenor: Keith Seifert

9:00 Basal fungal lineages. Presentation and discussion of data.

12:30 Lunch

1:30 Discussion of potential problems with ITS (or other genes) as barcode marker.

2:30 Discussion to establish consensus on proposed marker(s)

3:30 Publication plan

4:30 Discussion of future activities

Hotel accommodation Hotel The Albus, Amsterdam

Room €135,-- (plus tax, excl. breakfast 19,--). Register at

<http://www.albushotel.com/> and mention Groupcode CBS-KNAW to get the group discount. Please send an email that you registered (arrival and departure) to
